Witness Tells of Hearing Boy Shout "Nearer My God to Thee" as Bleeding Man Marched Through Streets

(By the Associated Press)

Marion, Ill., May 19.—After a recess of 31 days caused by the illness of the wife of one of the jurors, the prosecution today resumed the introduction of evidence against Hiram Willis, state executive board member of the United Mine Workers and five others charged with murder in connection with the Hattie riots.

Willis, according to the testimony of Dr. O. F. Shipman, formerly a resident of Hattie, drove to the miners' hail in Hattie in an automobile toward midnight on June 21.

Dr. Shipman asserted there was a crowd of about 100 men when Willis arrived and that he heard the cry: "We've got the mine well worked and nobody can get away. We can't do anything more before dark."

"The sheriff is our friend and he told me: '—'n' th'n, they ought to have known better than to have come

"The sheriff is a good fellow, sure. He is loyal to us and we ought to take care of him at the full plantation."

Meivin Thaxton, recently elected

county treasurer, was sheriff at the time of the outbreak, but Dr. Stangman testified that he did not know to whom Willis was referring.

previous witnesses, the 48 soldiers of the mine laid down their arms and surrendered after being ordered to do so by the soldiers. They were lined up before a barbed wire fence and shot down as they fled.

Dr. Shipman said that he had seen six of the prisoners who had been recaptured, marched bleeding and pleading through the street of Harlem by a jeering mob to a cemetery outside the town where they were shot down in the road.

"The crowd at one point made them get down and crawl along on their hands and knees," he testified. "Then they were all tied together with rope about their necks.

"I heard a boy shout 'Honor thy God to Thee' and a man told them that if they had even one more thought

R. O. Greer, former mayor of Martin, where he had a hardware store, testified that he had driven out in his automobile and had seen the men

"Clarke said: 'We ought to start at the head and stop the blood.' "

"I have been in this fight for five days and you have not done a damn thing. Go back and sit down."

Earlier in the day the defense was little to exclude part of the testimony of two hardware men regarding conversations said to have taken place

When their store was looted of
and ammunitions on June 21.

Don's Watch Chain Affected by Moods of the Weather.

Modern Van-Pocket Machinery So Slightly Adjusted That It Responds to Personal Magnetism.

It is not every day that a watch chain, according to a critic by a postmaster, changes the North China Herald. At least, but every watch chain with such machinery on one body's person as a watch chain. The explanation is simple. Modern van-pocket machinery is often so delicately adjusted that it becomes affected by the temperament of its wearer—thus, it is affected by personal magnetism.

For example, a couple of months back a woman brought me her watch as often as once every three days, complaining it was either too fast or too slow, the contributor continued. Each time I tried it it was beautifully, but once on the woman's person the irregularity of the watch was noticeable.

On inquiry, I found that she was of a highly nervous temperament while at other times she suffered from attacks of melancholia. Whatever her mental state, the watch recorded it. When she was vivacious it worked fast. When she was in a low mood it went slow.

Not only are men's watches similarly affected, but the timepieces are also greatly influenced by excess bodily electricity. Even a peculiar gait necessitating an awkward movement of the body is responsible for the throwing of some watches out of gear, and more than one man has had to abandon the watch-repairing business because he magnetized the delicate hair springs.

Engine drivers have often declared their watches kept excellent time while on a regular route. But once a new route was being worked the accuracy of their watches suffered until accustomed to the change, while a man who worked on a long stretch followed by a long rest failed to keep his watch working with regularity.

Motorists' watches are sometimes affected in like manner. Even the simple act of changing the position—may, from one pocket to the other—has been known to disturb the delicate mechanism of an otherwise good watch and impair its time-keeping qualities.

Very often it is impossible to regulate such watches unless the conditions under which they went wrong are known beforehand. If the temperament of each customer is briefly defined at the time, so much the better for the watchmaker and client alike.

Another reason why shop testing sometimes fails is that watches connected with the same wall, or shelf, have such a sympathetic effect in keeping time that they stop those which beat in an irregular time, and if any are at rest they set a-going those which beat accurately.

Commonly speaking, the autumn of the year is not favorable to the regularity of most watches. This by reason of the extreme changes of temperature. A watch which has been carried in one's pocket all day, and kept more or less warm, suffers the effects of shock when placed on a cold marble slab at night, or where there is a direct window draught.

So there you are next time anything goes wrong!

Projected Airship Service.

The project for an airship service between Spain and Argentina has progressed so far that airship stations are being erected at Seville and Buenos Aires. The stations are enormous circular sheds revolving under electric power so that an air liner may be housed safely no matter how hard the wind is blowing, or from what direction.

The ships to be used will have nine masts and carry 40 passengers, in addition to the officers and crews, and will accommodate also 11 tons of baggage and mail.

A trip is contemplated each day weekly, the westward trip occupying three days and the eastward four days and six hours.

Taking Chances.

"One of the most difficult things to do," said a superintendent of one of the large office buildings in the financial district of New York, "is to make employees take ordinary precautions. We make it a rule to discharge window cleaners who neglect to make use of the life belt with which each one is equipped when working on the outside of the case-ments. Do you know that I am constantly discharging them for their failure? And our jobs are worth having. Men working at high elevations are over-looked; familiarity makes them careless; looking the effect is too much trouble, so they take a chance. This chap who fell did that."—Chicago.

When he finally received news, just as the vendors of candy's milk were making their rounds, his capture and waiting for him with a marble volume of the Encyclopedia Americana balanced temptingly on her arm.

"Where have you been, Al-hamy?" her voice called forth.

"Wip—er—I was detained at a large meeting."—New York Herald.

CRISTAL RADIO NEWS.

Many Records of Long Distance Reception by Simple Radio Set.

Chicago, Mar. 19.—Many records of long distance reception of music by radio have been made during the past winter, according to reports compiled here today by an interested radio amateur. While radio experts say such reception is not uncommon, they do not think it is as common as it is said to be.

The "crystal" receiving set, it was explained, requires no batteries for its operation and very few instruments. The crystal detector itself is a simple device, using a small piece of galena crystal—lead ore—to change the radio signal picked up by the aerial or antenna into recognizable sounds.

The crystal is fastened in a holder, and so arranged as to be in contact with a fine copper wire which is adjustable over any part of its surface.

Some amateurs have reported receiving broadcasting stations as far away as 1,000 miles, while others say that they have heard stations 300 miles or less from their listening posts.

Such long distance reception, radio experts have explained, is done by the crystal set, alone and without any outside assistance from a neighboring set that uses an audio tube as a detector.

"Due to the reports of long distance receiving with the crystal," one radio amateur said, "many anxious listeners have sought to learn how it is accomplished. While I cannot point to any type of set that will do the work, I can say that only close adjustments of the variable inductances with perfect weather conditions and the proper station, however, in the far-away plans—hookups, in several receiver plans—have been offered as solving the problem, but even some amateurs in this city have been able to receive Schenectady, N. Y., without any special apparatus."

State Civil Service Examinations.

There will be a state civil service examination in Oneonta and other cities of the state on Saturday, April 14, for many positions in state and county service. Among them are the following:

Assistant supervisor, juvenile placement department, department of labor; bookkeepers in state institutions for women, occupational therapists, state and county institutions; children's agents and clinic agents in child welfare work; guard in state school at industry, inspector of weights and measures, investigator, bureau of women in industry; multi-graph operator, clerk and messenger, state college of forestry, pathologist and social service worker, Graceland hospital, Westchester county.

There are also several unadvertised examinations for physicians in institutions for women; examiners in state education department and firemen in state prison.

Applications for written examinations should be filed on or before April 14. For detailed circulars and application forms address postal card to State Civil Service commission, Albany, N. Y.

LOU F. PAYN WEAKER.

Chatham, Mar. 19.—The condition of Lou F. Payn, Columbia county Republican leader, ill with pneumonia in his home here, tonight was reported as "less encouraging."

Attending physicians said no relapse had occurred, but that Mr. Payn had a "dull" day and that pulse, temperature and respiration "gave less hope for any immediate recovery."

Education in England.

London, Mar. 19.—The latest method of education in vogue in England is to take entire classes on sightseeing expeditions to other cities. Recently a class of 25 boys from Tetton hall college, Staffordshire, a preparatory school, came on such a journey to London.

Their trip included not only visits to all of the places of historical interest, but also to theatres and dances. The authorities of the school say the experience had the greatest broadening effect on the boys' minds.

In the Tolls of the Police.

Howard Condron was arrested on Parish avenue last evening by Officer Terrell and held in the city jail to answer this morning to a charge of public intoxication.

Officers Terrell and Jones found Sam McGoldridge feeling happier than the law allows on River street last evening about 7:30 o'clock and he was taken to the city jail on a charge of public intoxication.

COLLINS READY TO SIGN UP.

Philadelphia, Mar. 19.—Eddie Collins, star second baseman of the Chicago White Sox, at his home here today, said that he is not a hold-out.

"It seems whenever a player doesn't hustle off to training camp at the first whistle in the spring he is called a hold-out," Collins said. "I have no differences with the Chicago club and expect to leave for the South in a few days."

Collins said he is not disgruntled over the collapse of the White Sox-Yankee deal, which would have sent him to New York.

MATHEWS LEASE STORE.

This Office Converts Floor Space in Thriving Store.

The Mathews Store, Inc., has leased the store formerly occupied by Morris E. Davidson at 44 East Market street, and announces that between May 1 and 15 it will open an up-to-date shop for men's and ladies' wearing apparel, including millinery.

Oscar Mathews of Oneonta, general manager of the Mathews store, three of which are now in operation in Cortland, Norwich and Oneonta, was in Cortland today completing negotiations for the lease.

Extensive alterations will be made. A local concern will begin soon to tear out the old one-windowed front and build a new one which shall have two windows. An architect will make plans for altering the interior which will be at the front of the store and men's wear at the back. Only the first floor will be used. New fixtures will be installed.—(Cortland Leader.)

"OUT RATE" BOOTLEGGING.

New York, Mar. 18.—Rum row, off the New Jersey coast, was enlarged today when a steamer and four schooners joined the fleet anchored outside the three-mile limit. The new arrivals were believed to have come from the Bahamas.

Bad weather and increased activity of the coast guard in checking the activities of bottle fishermen resulted in "cut rate" bargains by the fleet. Fishermen from Cape May reported that they had been killed and offered small lots at \$40 a case.

JOY OF HEALTH WOMAN'S RIGHT

Mrs. Emma Frost from French weakness by Lydia E. Pinkham's Vegetable Compound

Detroit, Michigan.—"I had female weakness with pains in my back, and I could not stand on my feet for any length of time. I was working in a factory but had to quit as I was too weak on my feet. A friend recommended Lydia E. Pinkham's Vegetable Compound to me, and I can hardly believe it myself that I am well. Oh, it is a grand thing to have your health! I feel well all the time and can go out like other women and not feel that awful torture. When I took your medicine first I thought it should be for the first time, but I am glad my husband kept me at it. I have had nine babies and now I am well."—Mrs. JENNY EVANS, 1634 Lafayette Blvd., Detroit, Michigan.

If you are suffering from displacements, irregularities, backache, nervousness or other forms of female weakness, you should take Lydia E. Pinkham's Vegetable Compound. The reason is given in letters like these, and we have published thousands of them. You may expect that a medicine that has helped other women will help you. Try it.

Only Few Escaped Disaster.

A few in town escaped disaster from the heavy wind Friday morning but most villagers are investing in shingles and several have to rebuild their chimneys. C. R. Dixon, John Foote, Will Puffer and Charles Ives have quite an amount of shingling. Miss Anna Carroll and the Scott house in Maple park, as also Mrs. M. A. Damon and Daniel Burroughs are among those to have chimneys blown down. The John King house on Main street had four windows blown in beside losing shingles and brick. Henry M. Cowan and Hector W. Cowan each had much damage done to their roofs and chicken houses and windows were blown in at the Will Burroughs farm house on the Clover road. One of our leading business men in this locality estimated the loss at \$100,000 along the line of the Elster and Delaware and in towns nearby.

Matters of Current Interest as Told in Columns of Exchanges.

B. F. Hubbard, a Norwich druggist, has been re-elected secretary and treasurer of the New York State Retail Club, connected with which are 600 druggists of the state.

Norwich is planning to have a baseball team this year. In order to start the thing right, it is proposed to have a benefit concert the latter part of April for which it is expected to sell 2,000 tickets at a dollar each.

"Rent gougers in Cohoes must go," announces Mayor Daniel J. Conroy. The official declared action of the board of assessors would be asked to curb the evil, and if remedial steps were not forthcoming, he would move to have the present assessment body legislated out of office and a department of assessment created in its stead.

Robert Cornelius Smith, a Gilbertsville baby, was winner of first prize in the best baby contest recently conducted by the Dairyman's League News. There were 401 babies entered from five different states, and Robert, with a scale of 99 1/2 per cent, was nearest perfect.

The will of the late Miss Harriet T. Bryce of Cooperstown bequeaths the sum of \$5,000 to the Susan Fenimore Cooper foundation. The will makes specific bequests of about \$20,000.

The appeal on the matter of the last of January by more than 15,000 and marked the eleventh month in which Ford sales have topped the 100,000 line.

This sales record beats out predictions made at the opening of the year that an acute shortage in Ford cars is certain and this shortage is expected to be felt within the next two months on the increased volume of car buying which is always attendant upon the spring months.

Even the high production schedule set at the Ford Motor company's factory here, which will reach 6,000 cars and trucks a day about April 1st, will be unable to meet the apparent demand for Ford products.

Anticipating a great increase in the demand for Ford cars during the present year the factory here has hit plans for increasing production to the 6,000 cars a day schedule and since January first has been constantly speeding up manufacture to reach this figure. Demand so far has been of such great proportions as to absorb nearly all production, and stocks in hands of dealers are at present the lowest they have been in months.

February sales of 116,000 cars were made in the face of unfavorable weather conditions in many sections of the country which tied up freight traffic and prevented many deliveries. This was particularly true throughout the northwest, the northern tier of states and in New England. In California, too, cold weather during a part of the month had its effect upon car sales.

Yet with even these unfavorable conditions, the February sales topped those of January by 15 per cent and set a new, high record for mid-winter selling.

With February the eleventh month in which Ford car sales have gone over the 100,000, the total for this period is close to 1,250,000 cars.

As car sales usually are dropped during the summer months with rains in the fall and winter. This feature of automobile absorption by the buying public has been completely changed during the last few months through the activities of the Ford dealer organization which has raised the "peak" due to include every month in the year.

116,000 FORDS FOR FEBRUARY

Shortest Month Brings New Sales Record — Across American Continents as 6,000 Cars a Day Production Pled to Meet Demand.

Detroit, Mich., Mar. 19.—With 116,000 Ford cars sold at retail in February a new record for the shortest month in the year has been established.

This sales record beats out predictions made at the opening of the year that an acute shortage in Ford cars is certain and this shortage is expected to be felt within the next two months on the increased volume of car buying which is always attendant upon the spring months.

Even the high production schedule set at the Ford Motor company's factory here, which will reach 6,000 cars and trucks a day about April 1st, will be unable to meet the apparent demand for Ford products.

Roses In Winter

Some one has said:

"God gave us memory so that we might have roses in December."

Just so. Canned goods have made possible the enjoyment of Summer's fruitfulness when bitter Winter holds his sway and boisterous March winds blow.

The choice of the World's markets, full, ripened on vine or tree, unspoiled by transportation or refrigeration—this is what Canned Goods bring to each of us every day in the year, in season and out of season.

Our "SENATE" and "NEW and TRUE" brands of Canned Goods are reliable. The quality is superb.

EASY TO BELIEVE

It is easy to believe a lie when the falsehood presented chances exactly with one's own convictions. There, for example, is the recent instance of certain New York papers, and others in Chicago, Boston and San Francisco, which printed a two-column article purporting to be a note prepared by the British cabinet and which, even though not delivered was none the less the sentiment of Bonar Law and his cabinet. Throughout the verbiage of the article was most offensive and insulting. Among other things calling the occupation of the Ruhr district a violation of the principles of public right and humanity. A few hours later investigation showed that the document was not prepared by the British cabinet or drafted by the Secretary of State for Foreign Affairs, but was merely an editorial article in the Nation and Athenaeum, which is the leading radical journal of London. The British government had nothing to do with it, but the story is still being the rounds of the radical press in its original form, and doubtless will be for many a day, or year. It is more to another instance of the fact that people believe what they wish to, and that a lie well started on its course cannot readily be overtaken.

HARDING TO BE CANDIDATE

Attorney General Daugherty's announcement from Miami, Fla., to the effect that President Harding will be a candidate for re-election in 1924, and that he will probably have no opposition for such re-election, does not appear to surprise anybody. Since the days of Washington, with only a few exceptions, the latest of these has been President Hayes in 1877, there has not been a President to whom the issue of a re-election has not been presented. It is not, however, that the President is not followed by re-election, as was William Wilson. In the present instance there does not seem to be any opposition within the Republican party to his re-election. The only opposition is that of the Democrats, who are not expected to win. It is for this reason that it may be said that the question of re-election will not be personal. Rather it will depend upon the sentiment of the people on various parties and party principles, and upon the question of whether the next year and a half is a period of prosperity in the nation.

SAVES FOR THE GARDEN

The newspapers of this state and sections of the country at large are in regular receipt of circulars and printed matter advocating the abolition of the United States. These circulars are sent out by the Society for the Repeal of the Eighteenth Amendment. Inasmuch as the Anti-Saloon league is regarded as a political organization to print a full list of contributors to its funds, it is in order to ask the opposing organization to reveal the amount and the source of each of its subscriptions. They would unquestionably make interesting reading, and since for the cause is certainly a cause for the garden. Moreover, an organization which strives to enforce the law should not be more strictly handicapped than one which seeks to repeal it.

FIDELITY THEMSELVES IN

Nine Russian immigrants were detained at Ellis Island on Saturday and Sunday they were requested to prove by playing a Tchaikovsky symphony that they were "artists" and able to support themselves. There is said to be no question as to the ability of the players—at least that was the opinion of the 1,000 or more immigrants who gave them double the applause usually accorded to volunteer amateurs who come down to practice their art of a Sunday on detained immigrants who are practically helpless against such detention. Whether they will get through or not, however, is dependent on the decision to be made in Washington.

Save the Arbutus

I desire to speak a word in time for our spring pet. From the snow will be off the mountains and people will be seeking arbutus, which early opens up its petals to greet us. It is getting very scarce as it is constantly being pulled up, because it does not root deep. One has a very tough stem. Any one seeking it should take with him a knife or a pair of scissors to cut the time in the heart of pulling it up or very soon we will have no arbutus. — (Lover of Arbutus)

WHAT THE PAPERS SAY

Continued from page 1.
Representative Clarence Macgregor, of Buffalo, who announced that he will attend the summer school of the University of Pennsylvania, where he will pursue a course in banking, is adopting an original plan for a congressman. He is a member of the house committee on banking and he wants to acquaint himself more thoroughly with the principles of the business so that he may be able to comprehend the questions that are likely to come before his committee. — (Pittsburgh Gazette-Times)

Cost of Carelessness

Freight losses and damages on all American railroads combined average \$100,000,000 a year, an expert estimates. That's another item to charge up mostly to carelessness. Since such losses in the long run are buttered out and shared about equally by everybody, each of us knows where \$1 of our year's income goes. — (Columbia Record)

Education and Commerce

Dean Helman of Northwestern Law schools refers in criticism to the fact that expenditures in America for consumer goods are fifty per cent greater than the aggregate of contributions to colleges and universities. If the people abstained from cosmetics, candy, tobacco, ice cream, chewing gum and all other things they do not need and contributed the saving to the schools, there would be an enormous total. — (Wilkes-Barre Record)

Forest Protection Service

The special senate committee appointed to investigate the country's wood and pulp problems recently called before it Secretary Wallace, of the Department of Agriculture. In the main his testimony was of a piece with that ordinarily proffered by officials of his department. He did sound, however, one new note. He suggested the extension of the forest protection service to include privately owned land. Such a measure should accomplish much in the prevention of reckless waste. — (Philadelphia Record)

Income Tax Returns

Washington reports that according to returns from Internal Revenue collectors throughout the country, the first installment of the Federal income tax will exceed the \$600,000,000 estimate made by treasury officials some time ago.

The statements tell of improving conditions in all parts of the United States in the farming sections as well as in the industrial centers, and in this respect are regarded as a most encouraging index of returning prosperity.

Among the features of the returns are a check sent by a New York corporation whose name is not given, for \$1,750,000, and an individual return with a check for \$1,500,000. The treasury tax experts are quoted as expressing great satisfaction over the tentative reports which exceed all expectations. — (Baltimore Republican)

Railroad Group from Albany

From the talk one hears now and then from railroad workers and others there seems to be an impression that the Delaware and Hudson is one of only a few roads failing to come to a settlement with the shop craft strikers. The New York Times is one of the important news which drew up working agreements with the strikers, but on the basis of millions the settlements made by various roads embrace, it is said, only 72,900 miles as against 107,200 miles of roads which have refused to make agreements. The most important of the lines which have made no settlement include the Pennsylvania, Atchafalaya and Santa Fe, Chicago, Burlington and Quincy, Chicago, Rock Island and Pacific, Missouri Pacific, St. Louis-San Francisco, Louisville and Nashville, Union Pacific and Southern Pacific. — (Albany Evening Journal)

NINE JURORS SELECTED

Further Panel of Fifteen Summoned for Trial Morning in Green Man-slaughter Case in County Court at Cooperstown—Other Minor Matters.

Cooperstown, Mar. 19.—The March term of county court convened today at the court house in Cooperstown. Judge U. G. Welch presided and the court was called at 11:30 a. m. At the morning session there were several cases in which motions were made for discharge in which the parties had been placed under bonds to keep the peace. There were no appearances on the part of complainants and the several parties on motion were discharged.

Fred Foster, arrested and convicted for vagrancy in Oneonta and who broke parole, was re-arrested and lectured strongly by the court, which placed him under strict parole and permitted him to go.

The principal case to be heard at the March term of the court was the case of Cecil Green, indicted at the February term of supreme court for manslaughter in the second degree, the alleged crime being for causing the death of John Chase of Christian Hill, in the town of Hartwick, the alleged death in connection with which the offense is said to have been committed taking place at the home of Ira Green. The defendant was arraigned at 2 p. m. Claude V. Smith of Oneonta and David F. Lee of Norwich appearing for Green, and District Attorney Aurlan A. Pierson for the people.

The court proceeded immediately to a call of jurors, and at the close of the session nine had not yet been approved of the prosecution and defense and had taken their places in the box. The entire list of talesmen having been exhausted, the sheriff was directed to summon fifteen additional men who will appear in court this morning. From these it is believed that the three necessary jurors can be secured. The jurors already selected and approved are as follows:

William Drew, Hartwick, R. D. Benjamin Silvey, Gilbertsville. Eugene Lake, Cooperstown, R. D. 4. Isaac Wilbur, Wells Bridge. James Ahearn, Cherry Valley, R. D. 1.

Patrick Riley, Milford.

William Smith, Wells Bridge.

Winfield Ray, Richfield Springs.

J. A. Skinner, Westford.

Though the case is a very important one, no great difficulty seems to have been experienced with selection of jurors, which possibly is attributable to the fact that the penalty in this case could not be capital punishment, which in many instances has been a hindrance.

Mrs. Edward Mills wishes to advise her customers that the beauty parlor is open for business at the corner of Main and Second streets, Cooperstown.

LOCAL MENTION

Subscriptions and pledges received over the week-end put the Near East Relief drive over the top, Robert Hall, treasurer of the committee, announced last evening. This means that the city's quota of \$5,000 has been raised, insuring life to 10 Armenian babies.

The Ladies' Auxiliary of David Walker center will give a supper on Saturday evening, Mar. 24, in Odd Fellows hall for the benefit of the state custodian which is to be held in Oneonta in May. The public is cordially invited. The menu will appear in The Star of Saturday.

At the meeting of the board of public works last evening only two members were present and all business other than adding the bills for current expenses was deferred until Thursday evening, to which time the meeting was adjourned. The bids for material for street work will be opened at the adjourned meeting.

THE FILIPINO SERENADERS.

Play to Crowded House at Three Performances at Maxey Theatre.

Domingo's Filipino Serenaders appeared at the Maxey theatre for all three performances yesterday and were received enthusiastically. In fact, created favorable comment by all. They appear in connection with the usual picture program at no increase in prices and were greeted by good-sized audiences yesterday.

The serenaders carry \$10,000 worth of musical instruments and have appeared in many of the largest cities of the country on their annual tours. They played one entire season at the Winter Garden in New York, as well as at Keith's Palace and Broadway theatres there and at prices comparable with those being charged for their Oneonta appearances.

Besides the instrumental and vocal music, there is some clever dancing and the program, which lasts about half an hour, is so well varied as to seem too short.

Meetings Today.

The Woman's Missionary society of the Main Street Baptist church will meet in the church assembly at 2:30 today. Come prepared to sew on white craft work. The hostesses are Mrs. John Bell and Mrs. J. J. Bookhout.

DOLLAR DAY THURSDAY

Stores of Oneonta Continue to Make the Day One of Great Bargains.

All the stores of the city, big and little, will fairly radiate bargains no matter what may be their lines of business and the shopping center should be thronged with visitors from the village and country round about, all eager to take advantage of the exceptional offerings that will be made the public on Thursday next, Dollar Day.

The date has been deferred until now hoping that the highways would be clear and the weather conditions favorable. Now the date must be had because the stores are approaching and the stocks to be offered will enhance regular goods upon which there will be a general cutting of prices to stimulate buying and bring shoppers to the city.

The trolley company is offering special round trip rates from all points, including Springs to Oneonta inclusive, good that day on all trains which rates appear elsewhere in this issue.

Most of the merchants report they are getting out their best offerings and on every hand will be found real, old-time "cuts to the bone" when it comes to prices, they declare.

"There isn't any doubt but what the humble dollar will buy more on Dollar Day than on any other day known since ante-war days," said one merchant.

"The merchants do not intend to offer old, shopworn stock, but regular offerings, so the buyer has a chance of getting each time something actually worth far more than what he pays for it. I predict a buying cyclone, for I find that Oneonta merchants are just as wise and eager to secure a high water mark now as ever and literally thousands of old-time bargains will be offered by merchants who have long awaited just such an occasion as Dollar Day by which to reach their customers' hearts. In days when the price of money plays a part in the buyers' dreams it is surely refreshing to have such a time come along, when the buyer can have the chance of a lifetime for getting extra value."

Practically every line of trade in the city is represented in the list of cooperating merchants.

JOE SCANLON WILL COACH.

Teams in Herrieff Boys' League to Have Advice of Veteran Tactician.

Announcement that Joe Scanlon, the "Old Reliable" of Oneonta's baseball teams for the past two seasons, will coach the clubs which will compete in the Herrieff's Boys' League Shop league this season was made at a meeting at the Y. M. C. A. last evening of the four teams in the league. The announcement was hailed with delight by the boys, to whom Joe is little less than an idol.

The announcement was made by L. D. Smith, president of the league, who made a brief speech, stating that the way the boys played ball would have an influence upon their future lives. He also stated that the Coach's shop would give a cup this year to the winning team.

From Herrieff's made a few appropriate remarks and Mr. Scanlon reiterated what Mr. Smith had said concerning clean playing and clean living, adding a few stories concerning the same.

The last speaker was Secretary A. C. Lange of the Y. M. C. A., who gave the boys a fine talk on the value of the same to them. Light refreshments were served by the Ladies' auxiliary. The meeting aroused much enthusiasm and will doubtless result in a league race this year even better than that of last season.

Special Services of Salvation Army.

With Brigadier Simmons, Staff Captain Gourley and Adjutant Malpass assisting over the week-end, Captain Stubbs of the local Salvation Army experienced a very successful period. At the service Sunday evening there were four conversions besides the usual helpful results of the service.

Saturday evening the regular meeting was held at the Army hall, with a Scripture Cake in which twelve children assisted. Sunday morning an open air meeting was held at the D. & H. passenger station followed by the morning service at the hall. The visitors assisted at all of the regular meetings of the day, with noticeable success.

An inspection of the local books is a part of the object of the visit, and while the other two gentlemen left early Monday morning, Adjutant Malpass remained part of the day and gave some special help to Captain Stubbs.

THIRTY POSTAL DEPARTMENT

Appropriations Being Submitted, Government Cuts Budgetary Service on July 1—Thirty Other and Window Delivery in Oneonta Cancelled.

The government at Washington in its budget appropriation for the postal service for the year 1933-34 set apart a sum too small to carry on the work, particularly in view of the largely increased business of the office throughout the country. Having done this a year ago, and on March 4 adjournment without providing any supplementary appropriation, the department finds itself with no funds wherewith to carry on this extra work. Notice to this effect has been sent to the first and second class offices throughout the country, and from this time until July 1, when the next year's appropriation will become available, there will be no money wherewith to pay anything except the regular employees—nothing for the special service entitled by the increase in business.

Under the provisions of this order from Washington, it is understood that Postmaster Sherman will on March 21 until the end of the present fiscal year, which is June 30, be compelled to curtail the hours of the money order and window delivery service. Under the new disposition the money order window will be open from 8:30 a. m. to 5 p. m., instead of from 8:30 a. m. to 6 p. m. The stamp and general delivery window will from that date be open from 7:30 a. m. to 5 p. m., instead of from 7:30 a. m. to 7:30 p. m., as heretofore.

This inconvenience to the public, for which Postmaster Sherman is in no way responsible, will of course be borne with that resignation which is characteristic of the American public. After July 1 the new appropriation will be available and normal conditions will no doubt be resumed. Still it is unfortunate that the authorities at Washington are such poor guessers in a matter which vitally concerns the daily life of every citizen.

ENCOUNTERED BAD ROADS

Messrs. Stits and Morgan Came Through from Catskill Saturday.

Jack Stits and M. P. Morgan drove two Buicks through from New York city to Oneonta on Friday and Saturday last, coming to Catskill and thence to Tannersville and Pine Hill and so on through Roxbury and Stamford to Oneonta.

When questioned yesterday relative to the condition of the roads Mr. Stits said that it required from noon to 5:15 p. m. for him to get through from Grand Gorge to Oneonta, much of the time being consumed between Grand Gorge and Stamford. In that stretch they were compelled to use the shorps often and the road is in very bad shape and no one should attempt to make it in the opinion of Mr. Stits under a week or more dependent upon the weather. I would not attempt it again now for the price of a car, he added.

The road from New York here via Scranton and Windsor is very good and can be made with reasonable care in driving. There is no trouble beyond Windsor, where the road is like a carpet. This side of Windsor it is rutted and rough, but open and in daily use.

The road to Oneonta via Oneonta via Windsor, but the Belden hill road is still closed and will remain so for some days yet according to advice from Binghamton.

The road from Kingston to the Ashokan is closed, there having been but two cars through since Dec. 26th, and they had some trying experience. No one should attempt to go through that way. The Star is advised.

Tuberculosis Clinic.

The regular monthly tuberculosis clinic offering free chest examinations to all persons residing in Otsego county will be held at the Community house, Oneonta, from 1 to 5 p. m., on March 22nd. Dr. F. L. Winsor, superintendent of the County Sanatorium, will be the examining physician.

Tuberculosis taken in time is curable and this clinic is for the benefit of Otsego county. The most common symptoms are: persistent cough, spitting of blood, undue fatigue, loss of weight, shortness of breath and night sweats.

Births.

Born, March 19, at 1:15 a. m., to Mr. and Mrs. Elmer Babcock, 25 Franklin street, a daughter, Ruth Elizabeth, weight 7 pounds.

Born, March 19, 5:15 a. m., to Mr. and Mrs. Kenneth Mattice, 5 Factory street, a son, Winfield Joseph Irving Mattice, 2 pounds.

Born, March 19, 2:30 p. m., to Mr. and Mrs. Charles Clark, 42 Spruce street, a son, Thomas Smith Clark, weight 3 1/2 pounds.

In each case Dr. F. H. Marx was the attending physician.

A Fortunate Strike.

When Clyde Munzer tried to turn the Cadillac sedan which he was driving around on South Side early Sunday morning the car slipped from the roadway and landed astraddle of the brook which runs by the residence of C. H. Baker. The car was extricated with the aid of the service car of the Prospect garage and there was no even a scratch on the machine. Munzer was driving the car of C. J. Sherman.

HAMILTON CLUBS CONCERT

Tickets on Sale Today for American Legion Building March at High School April 3.

Tickets will be placed on sale today for the concert to be given by the Hamilton College Musical club at the High school April 3 for the benefit of the building fund of Oneonta part of the American Legion. They may be procured from members of the Legion or at the following stores: Wyckoff's, Florio's, Carr Clothing company, Ingersham's, Clear store and Ye Little Smoke shops.

The Hamilton club, which have appeared in Oneonta several times in previous years, are reported to be better this year than ever before. Concerts have already been given at Clinton, Utica, Rochester, Warsaw and Buffalo, at all of which places the clubs were well received and were given very favorable press comment.

The combined Glee and Instrumental clubs carry 36 men, the pick of the musical talent in the college. In addition to the choral numbers and the instrumental club selections, the program will include vocal and violin solos, quartet numbers, specialty acts and a vaudeville sketch featuring a five-piece dance orchestra. The music has been carefully selected and will include both classical and popular selections. A dance will follow the concert.

The proceeds from the concert will go to swell the building fund of the Legion, which hopes that some day not too far in the future, the fund will be of such size that the ex-servicemen may have quarters that they can call their own.

REFUSES TO ACCEPT MONEY

W. F. Brington of Springfield Center declined to take money awarded in Compensation Proceedings and is in dispute with County Treasurer.

Quite an unusual proceeding was before Justice Kellogg at chambers here on Saturday. When it was decided to have a new school building in the village of Springfield Center the lot desired therefor was not obtainable without condemnation. This was done and the commission, after careful investigation, made an award to the owners, William F. Brington and Grace Brington, his wife, which was considered fair by all concerned. The former owners now refuse to receive the amount of the award.

As a consequence Attorney O. L. Van Vorhis was before the court and secured an order directing that the amount of the award be deposited with the county treasurer of Otsego county. It was probably some time before the proceeds of the award were received by the Bringtons.

In the case of Miss Talbot, vs. Ada A. Smith et al., an action in partition, Justice Kellogg, on motion of the plaintiff, ordered that the property be sold and the proceeds divided equally between the parties.

In the case of Mrs. Wagner, deceased, O. L. Van Vorhis appeared for the plaintiff, A. A. Foss of Elmira for the defendant, Ada and Walter Wagner, Harold B. Carpenter for defendant Hazel.

THE TOPCOAT IS THE THING

Copyright 1923 Earl Schaffner & Sons

Women seem always to have recognized that there were four seasons in the year, but men, being more conservative, long tried to believe that the only season was winter. Now, however, they are beginning to realize that there are four seasons in the year, and that the only way to stay comfortable all year is to wear the right kind of clothing.

This is going to be a great top coat year. The style tendency this season is toward loose overcoats with no collar. In fabrics English cloths, vicuña, tweeds and heavy buckramed cloth are in favor. Above you see one of the popular new spring styles—a smart English style with attractive yoke and belt. Attractive in design and the new style overcoat is a popular fabric.

WEST END AND THE PLAINS

Activities of the West and Plains at the Elm Park Methodist Church.

An every member canvass was held Sunday at the Elm Park Methodist church, several teams soliciting for subscriptions to cover the expenses which must be incurred at the conference here beginning April 1. The people responded very generously and the canvass was entirely successful, the first day showing an increase of 30 per cent over the first day of last year. The committee teams met at the church at 8 o'clock to report. Following the meeting the Ladies Aid society served a delicious luncheon.

A man-of-war social will be held in the church parlors Wednesday evening. An oyster supper at 35 cents will be served beginning at 8 o'clock and continuing until all are taken care of.

Following the prayer meeting on Thursday evening the Tithers' association will hold a meeting for the election of officers. Every member is urged to be present as there is important business to come before the organization.

The church choir will meet at the parsonage this evening to rehearse Easter hymns.

OBITUARY OF CHARLES ROWELL

Franklin, Mar. 19.—Charles Rowell, notice of whose death appeared in The Star of Monday, was born in Franklin 4 years ago. His parents were Charles and Avis (Beach) Rowell. About 17 years ago he was united in marriage with Miss Dora Davidson of Franklin, who survives him together with two daughters, Catherine, aged 14, and Avis, aged 12; his old mother, three brothers, George Rowell of Rhode Island, Alvah D. Rowell of Delhi, and Edwin L. Rowell, cashier of the Franklin National bank; and one sister, Mrs. Emma Beach of Franklin. The funeral services will be at his late home on Wednesday, at 12:30 p. m., with Rev. Harlow W. Parsons officiating. Interment in Outlook Valley cemetery.

Mr. Rowell, who was a prosperous farmer, was a man of splendid habits and enjoyed the esteem of all who knew him. He was a member of the Franklin Congregational church.

Mrs. H. D. Wheeler Better

Word has been received from H. D. Wheeler, who has been in Miami, Florida, since his wife became seriously ill, that Mrs. Wheeler is improving and is able to be out of doors in a wheelchair. It will be some weeks, however, before she will be able to return to Oneonta.

Make a Family Supply of Cough Remedy

Really better than any other remedy. It is a family supply of cough remedy. It is a family supply of cough remedy.

If you combined the curative properties of every known remedy, you could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

From one ounce of Druggist 21, mixed with 1/2 cup of water, you can make a bottle of the bottle with syrup, or as either plain granulated sugar syrup, or mixed with honey, or as you prefer, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never fails.

This Faint and Syrup combination gets right at the cause of the cough, and it is a family supply of cough remedy. It is a family supply of cough remedy.

Improve your cough remedy. The fresh berries, when berries are in season, are a family supply of cough remedy. It is a family supply of cough remedy.

In Bridal Finery

This is the way Lady Bow-Lyon will appear to the Duke of York on his wedding morn'g next month when she becomes the bride of the second son of King George and Queen Mary.

DEATHS

Mrs. Flora Bennett Bell.

Mrs. Flora Bennett Bell, wife of Charles H. Bell of 86 Ford avenue, died at the home at about 2:45 p. m. yesterday as the result of tubercular trouble from which she had suffered for some time. However, her last illness had been only of a few weeks and news of her death will be a sad shock to many friends. The funeral will be held from the home of her parents, Mr. and Mrs. Frank D. Bennett, 9 Tilton avenue, Thursday afternoon at two o'clock with Rev. J. C. Johnson, a long-time friend of the family, and Dr. Flynn of the First Methodist Episcopal church officiating. The body will be placed in the vault of Glenwood cemetery.

Flora Bennett was born at Sherburne, April 1, 1855. In 1885 she moved to Oneonta with her parents, Mr. and Mrs. Frank D. Bennett and has made this city her home since, except for a little more than a year which she spent in New York city where her husband was employed. She graduated from the High school in the class of 1894 and taught school for a year. However, her health was poor and she was forced to abandon her profession.

August 2, 1911, she was united in marriage to Mr. Charles H. Bell and went to New York city where Mr. Bell was employed. In 1913 they returned to Oneonta and Mr. Bell has worked as mason and bricklayer, being for some time united with his father under the firm name of Bennett and Bell.

Surviving her are her parents, her husband, four children, Edward, Grace, Brenda and Stuart, the eldest ten and the youngest four years of age; two brothers, Lewis A. Bennett of Pittsburgh, and Rev. F. C. Bennett of Guilford, and a two sisters, Miss Emma J. Bennett of this city and Miss Grace Bennett of North Bergen, N. J. The latter sister and the husband have been constantly at the bedside of Mrs. Bell for more than a week.

Mrs. Bell was a devoted Christian and always faithful as a child, wife and mother.

Brother of G. S. Edmunds Dead

George S. Edmunds, superintendent of Motor power of the D. & H. company, who has been giving personal attention to the shops here much of the time for the past few weeks, has been called to Glen Cove, Long Island, by intelligence of the death of his brother, A. Benjamin Edmunds, who was a practicing veterinarian there. His death occurred on Friday last and the funeral services were Monday at 2 p. m. The brother knows here will have the sympathy of many friends along the D. & H.

Let the Sunshine in!

Are you fagged and foggy when you wake up in the morning? "There's a Reason."

Coffee and tea are known to affect many people that way. Often, these beverages cause nervousness, sleeplessness and severe headaches. "There's a Reason."

Postum, made from wheat roasted just like coffee, is a delightful morning beverage free from any element of harm.

Try it instead of coffee or tea, and let the sunshine in.

Postum FOR HEALTH

"There's a Reason"

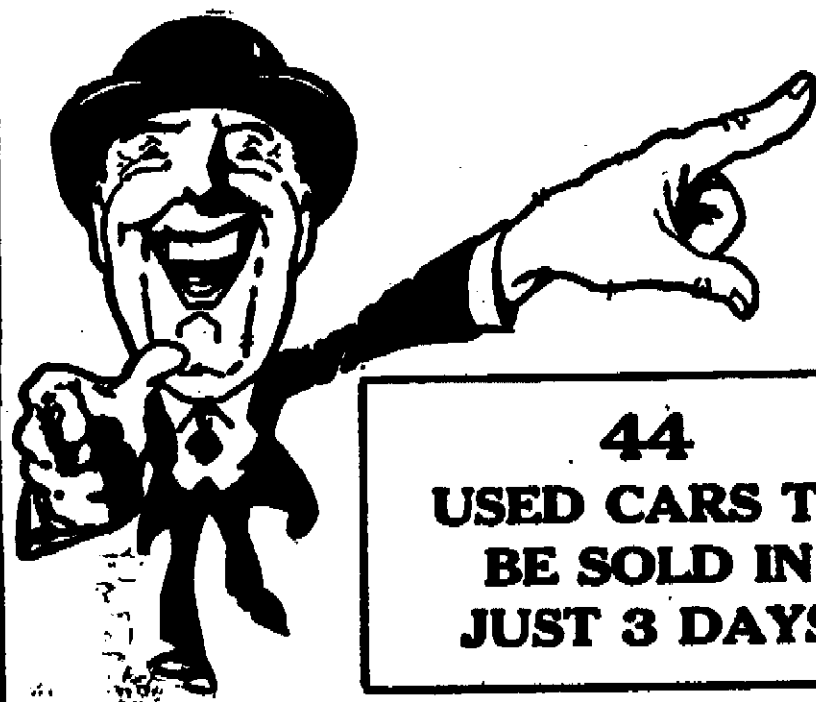

Made by Postum Cereal Company, Inc. Battle Creek, Mich.

Your power with Postum is two fold. First, Postum is the most perfect food in the cup by the addition of boiling water. Postum Cereal (the package) for those who prefer to make the drink while the sun is shining brightly, save by letting Postum in.
